SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

As authorized and encouraged under 37 C.F.R. §§ 1.97-1.98 and the provisions of MPEP §§609 and 707.05(b), Applicants submit herewith certain supplemental patent references, publications and/or other information which the Patent and Trademark Office may wish to consider in examining the above identified patent application.

The identification of any document herein is not intended to be, and should not be understood as being, an admission that each document, in fact, constitutes "prior art" within the meaning of the applicable law. The references are listed below and on attached form PTO-1449.

A copy of each document is included for the express purpose of providing the Patent and Trademark Office with ample opportunity to evaluate the same and arrive at an independent assessment of the materiality of each, if any, to the examination of the above-identified application.

In reviewing the enclosed copies of the above documents, the Examiner is instructed to ignore any underscoring or highlighting which may have been done because such markings may or may not have any relationship to the subject matter of the above-identified application. The copies being submitted with this "Information Disclosure Statement" are the best copies available at this time.

The identification of any document herein is not intended to be, and should not be understood as being, an admission that each such document, in fact, constitutes "prior art" within the meaning of applicable law.

Applicant respectfully requests that the documents cited herein be made of record in the normal manner and that such documents appear on the printed patent as being considered and made of record.

Respectfully submitted,
